**Cookie Policy**
We would like to inform you about the types of cookies used on our website, the purposes for which cookies are used, and the settings, management and the deletion of those cookies.

**What is Cookie?**
Cookies are small pieces of text files stored to your computer or mobile device through your browser when you visit a site. Besides allowing a site to work more efficiently, cookies also allow presenting personalized pages in order to provide a more convenient and faster visit experience for your personal needs. Cookies only contain information about your visit history and do not collect any information regarding the files stored on your computer or mobile device.

**Types of Cookies and Purposes**
There are two types of cookies according to the duration of the cookie: Session Cookies and Permanent Cookies. Session cookies are formed when you visited the site and valid only until you close your browser. Permanent cookies are formed when you visited the website, however remains valid until you delete them or they are expired. For purposes such as providing you a personalized experience compatible with your settings, permanents cookies are used.

The types of cookies that are used on our website and their purposes are explained below.

**Types of Cookies Used On Our Website**

| | |
|---|---|
| **Session Cookies** | Session cookies are temporary cookies that are used for the duration of our visitors' visit to the Website and are deleted after the browser is closed. The main purpose for the use of such cookies is to ensure the proper function of the Website during your visit. For example; it ensures that you are able to fill out online forms consisting of multiple pages. |
| **Permanent Cookies** | Permanent cookies are used to increase the functionality of the Website and to provide a faster and better service to our visitors. These types of cookies are used to remember your preferences and are stored on your device via browsers. Some types of permanent cookies can be used to provide you with specialized recommendations taking into account the purpose of your use of the Website. With the help of the permanent cookies, in the event that you visit our Website with the same device, whether there is a cookie previously formed by our Website on your device will be checked. If there is, it is understood that you have visited the site before and the content to be sent to you will be determined accordingly, thus providing you with a better service. |
