TÜRK TUBORG BİRA VE MALT SANAYİİ A.Ş.

CONSOLIDATED FINANCIAL STATEMENTS
AT 31 DECEMBER 2009
TOGETHER WITH INDEPENDENT AUDITOR'S REPORT

CONVENIENCE TRANSLATION OF THE AUDIT REPORT
AND FINANCIAL STATEMENTS ORIGINALLY ISSUED IN TURKISH

AUDIT REPORT ON FINANCIAL STATEMENTS

To The Board of Directors of
Türk Tuborg Bira ve Malt Sanayi A.Ş.
İzmir

We have audited the accompanying balance sheet of Türk Tuborg Bira ve Malt Sanayi A.Ş. (the "Company") and its subsidiary (together the "Group") as of 31 December 2009 and the related statements of comprehensive income, changes in equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting standards published by the Capital Markets Board. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

The independent audit the Group's financial have been performed by another independent audit firm. The previous audit firm gave emphasis of matter in the independent audit report dated 9 April 2009 for the consolidated financial statements as of 31 December 2008 regarding the going concern issue.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards published by Capital Markets Board. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the accompanying consolidated financial statements give a true and fair view of the financial position of Türk Tuborg Bira ve Malt Sanayi A.Ş. and its subsidiary as of 31 December 2009, and its financial performance and its cash flows for the year then ended in accordance with legislation and generally accepted accounting principles published by the Capital Markets Board.

Without qualifying our opinion, we draw your attention to the following matters:

i) The Group reports an accumulated deficit of TL 475.342.992 for the 12 month period ending 31 December 2009 in the accompanying consolidated financial statements. The Group's operations for the 12 month period ending 31 December 2009 has resulted in an operating profit of TL 5.031.650 and a net loss for the year of TL 1.446.037 and uncertainty as to the sustainability of operational profitability continues to exist. This situation indicates the existence of a material uncertainty which may cast significant doubt about the Group's ability to continue as a going concern. Group management has taken measures that are explained in detail in Note 27, in order to strengthen the Group's financial structure.

ii) As explained in detail in Note 27, the consolidated financial statements of the previous year are restated.

Approval of the consolidated financial statements for issue:

The consolidated financial statements of the Group were approved by the Board of Directors of Türk Tuborg Bira ve Malt Sanayii A.Ş. for issue on 8 April 2010. The General Assembly of the Company and/or governmental authorities are entitled to modify the consolidated financial statements as enclosed herein.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS

2.1 Basis of presentation

a) Going concern

The accompanying consolidated financial statements have been prepared under consideration of the going concern assumption of the Group. The accumulated losses of the Group amount 475.342.992 TL as of 31 December 2009. The Group has generated an operating profit of 5.031.650 TL and incurred a net loss of 1.446.037 TL during the year ended 31 December 2009, while the uncertainty on sustainability of such profitability still remains. That condition indicates the existence of a significant uncertainty that may cast doubt on the Group's ability to continue as a going concern. In this respect, the Group management has taken necessary measures to strengthen the financial structure as explained in Note 27 to the consolidated financial statements.

b) Basis of presentation of consolidated financial statements:

The Company and its Turkish subsidiary maintain their books of account and prepare their statutory financial statements in accordance with accounting principles in the Turkish Commercial Code ("TCC") and tax legislation.

The CMB regulated the principles and issued of preparation, presentation and announcement of financial statements prepared by the entities with the Communiqué XI, No: 29, "Principles of Financial Reporting in Capital Markets" ("the Communiqué"). The Communiqué is effective for the annual periods starting from 1 January 2008 and supersedes Communiqué XI, No: 25, "The Accounting Standards in the Capital Markets". According to the Communiqué, entities shall prepare their financial statements in accordance with International Financial Reporting Standards ("IAS/IFRS") endorsed by the European Union. Until the differences of the IAS/IFRS as endorsed by the European Union from the ones issued by the International Accounting Standards Board ("IASB") are announced by Turkish Accounting Standards Board ("TASB"), IAS/IFRS issued by the IASB shall be applied. Accordingly, Turkish Accounting Standards/Turkish Financial Reporting Standards ("TAS/TFRS") issued by the TASB, which do not contradict with the aforementioned standards shall be applied.

As the differences of the IAS/IFRS endorsed by the European Union from the ones issued by the IASB have not been announced by TASB as of the date of preparation of these consolidated financial statements, the consolidated financial statements have been prepared within the framework of Communiqué XI, No: 29 and related promulgations to this Communiqué as issued by the CMB, in accordance with the CMB Financial Reporting Standards which are based on IAS/IFRS. The consolidated financial statements and the related notes to them are presented in accordance with the templates recommended by the CMB, with the weekly bulletins No: 2008/16, 2008/18, 2009/02, 2009/04 and 2010/4 including the mandatory disclosures.

Other than financial assets and liabilities carried at their fair values, the consolidated financial statements are based on historical cost convention and prepared in terms of Turkish Lira ("TL").

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

c) Presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The consolidated financial statements are presented in TL, which is the parent Company's functional and presentation currency.

d) Adjustment of financial statements in hyperinflationary economies

With the decision taken on 17 March 2005, the CMB announced that, effective from 1 January 2005, the application of inflation accounting is no longer required for companies operating in Turkey and preparing their financial statements in accordance with the CMB Financial Reporting Standards. Accordingly, IAS 29, "Financial Reporting in Hyperinflationary Economies", issued by the IASB, has not been applied in the consolidated financial statements for the accounting year commencing from 1 January 2005.

e) Comparatives and restatement of prior year consolidated financial statements

In the current period, the Group has made the following reclassifications to the prior year consolidated financial statements to conform to changes in the current year presentation:

- At 31 December 2008 and 31 December 2007, the Group has reclassified its credit card receivables amounting to 2.327.593 TL and 2.666.622 TL, respectively, from cash and cash equivalents to trade receivables (Note 27.b).

- According to May 2008 amendments to IAS 38 "Intangible Assets", the promotional materials previously presented in inventories amounting to 1.075.276 TL and 1.184.258 TL as at 31 December 2008 and 31 December 2007, respectively, have been charged to the consolidated comprehensive income statement in the corresponding years. Such adjustment has decreased the net loss for the year ended 31 December 2008 by 108.982 TL (Note 27.b).

- At 31 December 2008 and 31 December 2007, the Group has reclassified its deposits and guarantees given amounting to 43.523 TL and 6.160 TL, respectively, from trade receivables to other receivables (Note 27.b).

- Unincurred finance income and cost amounting to 875.200 TL, which was previously presented in financial income and financial expense in the consolidated comprehensive income statement for the year ended 31 December 2008, have been net off against each other (Note 27.b).

- Reversal of provision for doubtful receivable amounting to 566.783 TL at 31 December 2008, which was previously presented in other operating expense in net basis, has been reclassified to other operating income on gross basis (Note 27.b).

- Commission expense amounting to 584.836 TL at 31 December 2008, which was previously presented in other operating expense, has been reclassified to marketing, selling and distribution expenses (Note 27.b).

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

f) Group accounting

The consolidated financial statements include the accounts of the parent company, Türk Tuborg and its subsidiary on the basis set out below. Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of the companies included in the scope of consolidation have been prepared as of the date of the consolidated financial statements and have been prepared in accordance with CMB Financial Reporting Standards, applying uniform accounting policies and presentation.

Subsidiary

Subsidiaries are companies over which the Company has power to control the financial and operating policies for the benefit of the Group. This power is granted if Türk Tuborg can exercise more than 50% of the voting rights relating to shares in the companies as a result of shares owned directly and indirectly by itself. Subsidiary is included in the consolidated financial statements from the date of transfer of control any to the Company and it is excluded from the consolidated financial statements from the date of cease of control. The balance sheets and comprehensive income statements of the subsidiary are consolidated on a line-by-line basis and the carrying value of the investment held by the Company is eliminated against the related equity. Intercompany transactions and balances between group companies are eliminated. The cost of, and the dividends arising from, shares held by Group are eliminated from equity and income or loss for the year, respectively.

The details of the Company's subsidiary at 31 December 2009 and 2008 are as follows:

Subsidiary	Location of incorporation	Participation rate (%)	Voting power (%)	Core business
Bimpaş Bira ve Meşrubat Pazarlama A.Ş.	Turkey	%99,93	%99,93	Selling and distribution of beer

As the Subsidiary's net assets and related minority shares do not have any significant impact on the net value of the Company, its financial position and operations, they are not separately classified as minority share in the consolidated balance sheet and comprehensive income statement.

2.2 Changes in accounting policies

The accounting policies are continuously applied by the Group and are consistent with those accounting principles as applied in the preceding terms. Any significant changes in the accounting policies are retrospectively applied and the consolidated financial statements of the preceding terms are restated. The Group has made a change in its accounting policies due to the effects of the improvements in IAS 38 in the current year as further explained in the Note 27.b.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2.3 Changes in accounting estimates and errors

Any significant changes in accounting estimates are prospectively applied in consolidated financial statements and accounted for in the current and preceding periods. There has been no significant change in the accounting estimates of the Group in the current period.

In relation to errors identified in financial reporting, they are accounted for retrospectively and prior year financial statements are restated.

2.4 Amendments to International Financial Reporting Standards

In the current period, the Group has adopted the new and revised standards, amendments and interpretations that are relevant to its operations issued by the IASB and the International Financial Reporting Interpretations Committee ("IFRIC") of the IASB effective for accounting periods beginning on 1 January 2009. The adoption of those new and revised standards and interpretations has resulted in changes to the Group's accounting policies in the following areas:

- IAS 1(Revised) , "Presentation of financial statements"

The revised standard will prohibit the presentation of items of income and expenses (that is, 'non-owner changes in equity') in the statement of changes in equity, requiring 'non-owner changes in equity' to be presented separately from owner changes in equity. All non-owner changes in equity will be required to be shown in a performance statement, but entities can choose whether to present one performance statement (the statement of comprehensive income) or two statements (the income statement and statement of comprehensive income). The Group has applied IAS 1 (Revised) effective from 1 January 2009 and elected to present statements of income and statement of comprehensive income together.

Where entities restate or reclassify comparative information, they will be required to present a restated balance sheet as at the beginning comparative period in addition to the current requirement to present balance sheets at the end of the current period and comparative period. As further explained in Note 2.1, the Group has reclassified and restated the comparative financial information. Accordingly, the opening balance sheet on 1 January 2008 has been presented in the accompanying consolidated financial statements.

- IFRS 7 (Amendments), "Financial Instruments: Disclosures"

Amendments to IFRS 7 which was issued in March 2009 are applicable to the Group beginning on 1 January 2009. The amendments require enhanced disclosure on fair value measurements as well as on liquidity risks. Specifically, the amendments require the Group to disclose changes in valuation techniques for classes of financial instruments where valuation techniques were used to determine fair values. In addition for each class of financial instrument, the Group is required to disclose the level in the fair value hierarchy into which the fair value measurements are categorized. When valuation techniques used to determine fair values of financial instrument changes, the transfers between levels of the fair value hierarchy are required to be disclosed. Furthermore, the Group is required to provide a reconciliation of fair values measurements that are determined based on unobservable inputs. Sensitivity analysis on changes in assumptions related to unobservable inputs should also be presented if such changes would produce significant fair value changes.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

- IFRS 8 "Operating Segments"

IFRS 8 replaces IAS 14 'Segment reporting' and requires segment information to be presented under a 'management approach', where segment information is to be shown on the same basis as that used for internal reporting purposes. The Group has adopted the provisions of IFRS 8 "Operating Segments" in 2009. Due to the fact that the Group only operates in a single industrial segment, that a substantial part of its operations occur in Turkey and that all of its assets are located in Turkey, the financial information are not required to be reported by segments.

- IAS 23 (Revised) "Borrowing Costs"

The Group has adopted the revised standard IAS 23 on borrowing costs starting 1 January 2009. Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalized as part of the cost of that asset. As there are no material qualifying assets of the Group in 2009, borrowing costs are expensed when incurred.

- Improvements to IFRSs issued in May 2008

The improvements include 35 amendments across 20 different standards that largely clarify the required accounting treatment where previous practice had varied, and have resulted in a number of changes in the detail of the Group's accounting policies. The only amendment included in improvements to IFRSs that has had a material impact on the Group's accounting policies is the amendment to IAS 38 "Intangible Assets", which has been amended to state that an entity is permitted to recognize a prepayment asset for advertising or promotional expenditure only up to the point at which the entity has the right to access the goods purchased or up to the point of receipt of services. Mail order catalogues or other promotional materials have been specifically identified as a form of advertising and promotional activities. In the past, the Group recognized its inventories of promotional materials held as an asset up to the date of dispatch. As a result of such improvement at IAS 38, promotional materials are charged to consolidated comprehensive income statement. The impact of the restatement on opening balance sheet is disclosed in Note 27.b.

<u>Standards, amendments and interpretations effective in 2009 but not relevant</u>

The following standards, amendments and interpretations to published standards are mandatory for accounting periods beginning on or after 1 January 2009 but they are not relevant to the Group's operations:

- IFRS 1 "First time adoption of IFRS" and IAS 27 "Consolidated and separate financial statements" (Amendment relating to cost of an investment on first-time adoption),
- IAS 1 "Presentation of Financial Statements" and IAS 32 "Financial Instruments - Presentation" (Amendments relating to disclosure of puttable instruments and obligations arising on liquidation),
- IFRS 2 "Share-based Payment" (Amendment relating to vesting conditions and cancelations),
- IAS 39 "Financial Instruments: Recognition and Measurement" (Amendments for embedded derivatives when reclassifying financial instruments),

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

- Amendments resulting from May 2008 Annual Improvements to IFRSs (IAS 1 "Presentation of Financial Statements", IAS 16 "Property, Plant and Equipment", IAS 19 "Employee Benefits", IAS 20 "Government Grants and Disclosure of Government Assistance", IAS 23 "Borrowing Costs", IAS 27 "Consolidated and Separate Financial Statements", IAS 28 "Investment in Associates", IAS 31 "Interests in Joint Ventures", IAS 29 "Financial Reporting in Hyperinflationary Economies", IAS 36 "Impairment of Assets", IAS 39 "Financial Instruments: Recognition and Measurement", IAS 40 "Investment Property", IAS 41 "Agriculture",
- IFRIC 13 "Customer Loyalty Programmes",
- IFRIC 15 "Agreements for the Construction of Real Estate",
- IFRIC 16 "Hedges of a Net Investment in a Foreign Operation",
- IFRIC 18 "Transfers of Assets From Customers".

<u>Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Group</u>

The following interpretations and standards amending existing standards have been published but not yet effective. The Group management has been evaluating the possible impacts of those standards, amendments and interpretations on the consolidated financial statements.

- IFRS 2 "Share-based Payment" (Amendment relating to group cash-settled share-based payment transactions),
- IFRS 3 "Business Combinations", IAS 27 "Consolidated and separate financial statements", IAS 28 "Investment in Associates", IAS 31 "Interests in Joint Ventures" (Comprehensive revision on applying the acquisition method),
- IFRS 9, "Financial Instruments: Classification and Measurement" IASB has issued phase 1 of IFRS 9, classification and measurement in November 2009, which will eventuall replace IAS 39. Classification under IFRS 9 is driven by the entity's business model for managing the financial assets and the contractual characteristics of the financial assets. It requires measurement at either amortised cost or fair value. The standard is effective for annual periods beginning on or after 1 January 2013, with earlier application permitted.
- IAS 24, "Related Party Disclosures" IAS 24 simplifies the disclosure requirements for government-related entities and clarifies the definition of a related party. The standard is effective for annual periods beginning on or after 1 January 2011, with earlier application permitted.
- IAS 39 "Financial Instruments: Recognition and Measurement" (Amendments for eligible hedged items),
- IFRIC 17 "Distributions of Non-cash Assets to Owners"
- IFRIC 19 "Distinguishing Financial Liabilities with Equity Instruments".

2.5 Summary of significant accounting policies

2.5.1 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. The Group performs significant portion of its domestic sales via its exclusive dealers. The revenue recognition criteria used for domestic and exports sales are as follows:

Sale of goods:
Revenue from sale of goods is recognized when all the following conditions are satisfied:

- The Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- The Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the entity; and
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Interest revenue:
Interest revenue is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

2.5.2 Inventories

Inventories are stated at the lower of cost and net realizable value. Costs, including an appropriate portion of fixed and variable overhead expenses, are assigned to inventories held by the method most appropriate to the particular class of inventory, with valued on a weighted average basis. Net realizable value represents the estimated selling price less all estimated costs of completion and costs necessary to make a sale. When the net realizable value of inventory is less than cost, the inventory is written down to the net realizable value and the expense is included in the consolidated comprehensive income statement in the period the write-down or loss occurred. When the circumstances that previously caused inventories to be written down below cost no longer exist or when there is clear evidence of an increase in net realizable value because of economic circumstances, the amount of the write-down is reversed. The reversal amount is limited to the amount of the original write-down.

2.5.3 Property, plant and equipment

All other items of property, plant and equipment acquired before 1 January 2005 are carried at cost in the equivalent purchasing power of TL as at 31 December 2004 and items acquired after 1 January 2005 are carried at cost, less the subsequent depreciation and impairment loss, if any, as of 31 December 2009.

Property, plant and equipment are capitalised and depreciated when they are fully commissioned and in a physical state to meet their designed production capacity. Residual values of property, plant and equipment are deemed as negligible.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Depreciation is charged so as to write off the cost or valuation of assets, other than land and properties under construction, over their estimated useful lives, using the straight-line method. Land is not depreciated and carried at cost less accumulated impairment. Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets using the straight-line method.

The annual depreciation rates for property, plant and equipment, which are based on the approximate useful lives of such assets, are as follows:

	Rate (%)
Buildings	2,5 - 4
Machinery and equipments	6,7 - 20
Furniture and fixtures and returnable bottles and crates	6,7 - 33
Motor vehicles	12,5 - 20

The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

An impairment loss is recognised for the amount by which the carrying amount of the asset exceeds its recoverable amount. Impairment losses are recognised in consolidated comprehensive income statement.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

Repairs and maintenance are charged to the consolidated statements of income during the financial period in which they are incurred. The Group derecognises the carrying amounts of the replaced parts related to renovations regardless of whether the replaced parts were depreciated separately. Major overhauls are depreciated over shorter of their useful lives or the remaining useful life of the related assets.

2.5.4 Financial leasing

Leasing - the Group as Lessee

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases. Assets held under finance leases are recognized as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged to profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Group's general policy on borrowing costs.

Rentals payable under operating leases are charged to profit or loss on a straight-line basis over the term of the relevant lease. Benefits received and receivable as an incentive to enter into an operating lease are also spread on a straight-line basis over the lease term.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2.5.5 Intangible assets

Intangible assets acquired separately are reported at cost less accumulated amortization and accumulated impairment losses. Intangible assets are mainly composed of computer software and other related intangible assets none of which were internally generated. Amortization is charged on a straight-line basis over their estimated useful lives of three years. The estimated useful life and amortization method are reviewed at the end of each annual reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Residual values of intangible assets are deemed as negligible. An impairment loss is recognised for the amount by which the carrying amount of the asset exceeds its recoverable amount.

2.5.6 Impairment of non-financial assets

At each reporting date, the Group assesses whether there is an impairment indication for the assets, except for the deferred income tax asset stated at revalued amounts. When an indication of impairment exists, the Group estimates the recoverable amounts of such assets. Recoverable amounts of intangible assets that are not available for use, are estimated at each reporting date. An impairment loss is recognised for the amount by which the carrying amount of the asset or any cash-generating unit of that asset exceeds its recoverable amount, which is the higher of an asset's net selling price or value in use. Impairment losses are accounted for in the consolidated comprehensive income statement.

Impairment losses can be reversed to the extent that increased carrying amount of an asset shall not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years provided that increases in the recoverable amount of the asset can be associated with events that occur subsequent to the period in which the impairment loss was recognised.

2.5.7 Borrowing costs

Borrowings are recognised initially at the proceeds received, net of any transaction costs incurred. In subsequent periods, borrowings are measured at amortised cost using the effective yield method; any difference between the proceeds (net of transaction costs) and the redemption value is recognised at the consolidated comprehensive income statement as finance cost over the period of the borrowings. Loans with a maturity of less than 12 months are included in current liabilities and in non-current liabilities with a maturity of longer than 12 months.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. In 2009, the Group does not have any qualified assets, and borrowing costs are recognised in the consolidated comprehensive income statement in the period in which they are incurred.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2.5.8 Financial instruments

a) Financial assets

The classification of financial assets depends on the purpose for which the financial assets were acquired. The Group management determines the classification of its financial assets at initial recognition and re-evaluates this designation at every reporting date. The Group classifies its financial instruments in the following categories:

i. Receivables

Receivables constitute non-derivative financial instruments, which are not quoted in active markets and have fixed or scheduled payments. Receivables without held-for-sale intention arise from the Group's supply of goods and service to any debtor. If the maturity of these instruments are less than 12 months, these receivables are classified in current assets and if more than 12 months, classified in non-current assets. The receivables are included in trade receivables and other receivables in the consolidated balance sheet. Receivables are recognised initially at the proceeds received, net of any transaction costs incurred. In subsequent periods, receivables are stated at amortised cost using the effective yield method. The effective interest method is a method of calculating the amortized cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, or, where appropriate, a shorter period.

ii. Available-for-sale financial assets

Investments intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in interest rates, are classified as available-for-sale. These are included in non-current assets unless management has expressed the intention of holding the investment for less than 12 months from the balance sheet date or unless they will need to be sold to raise operating capital, in which case they are included in current assets. The Group management determines the appropriate classification of its investments at the time of the purchase and re-evaluates such designation on a regular basis.

All financial investments are initially recognised at cost, being the fair value of the consideration given and including acquisition charges associated with the investments, and subsequently carried at fair value. The financial assets which the group has a participation rate less than 20% and are classified as available-for-sale investments, are carried at market value when there is quoted market price, they are carried at fair value by using generally accepted valuation techniques, when there is no active market for the financial asset quoted not active. When there is no quoted market price, and when a reasonable estimate of fair value could not be determined as a result of being other methods inappropriate and unworkable, available-for-sale investments acquired before 1 January 2005 are carried at cost expressed in purchasing power of TL as at 31 December 2004 and available-for-sale investments acquired after 1 January 2005 are carried at cost, less impairment losses, if any. Impairment losses are recognized at consolidated comprehensive income statement.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

iii. Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term or if so designated by management. Assets in this category are classified as current assets, if they are either held for trading or are expected to be realised within 12 months of the balance sheet date. The Group has no financial assets in this category.

iv. Held-to-maturity investments

Non-derivative financial assets with fixed or determinable payments and fixed maturity that the management has the positive intention and ability to hold to maturity are classified as held-to-maturity. Held-to-maturity financial assets are carried at amortised cost using the effective interest method, less any provision for impairment. The Group has no financial assets classified in this category.

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at each balance sheet date. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been impacted. For financial assets carried at amortized cost, the amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables where the carrying amount is reduced through the use of an allowance account. When a trade receivable is uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in profit or loss.

With the exception of available-for-sale equity instruments, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized.

In respect of available-for-sale equity securities, any increase in fair value subsequent to an impairment loss is recognized directly in equity.

b) Financial liabilities

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below. Financial liabilities are classified as either financial liabilities at FVTPL or other financial liabilities.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

i. Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL where the financial liability is either held for trading or it is designated as at FVTPL. Financial liabilities at FVTPL are stated at fair value, with any resultant gain or loss recognized in profit or loss. The net gain or loss recognized in profit or loss incorporates any interest paid on the financial liability. The Group has no financial assets in this category.

ii. Other financial liabilities

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs. Other financial liabilities are subsequently measured at amortized cost using the effective interest method, with interest expense recognized on an effective yield basis.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

2.5.9 Foreign currency transactions

For the purpose of the consolidated financial statements, the results and financial position of each entity are expressed in TL. In preparing the financial statements of the individual entities, transactions in currencies other than TL (foreign currencies) are recorded at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary items denominated in foreign currencies are retranslated at the rates prevailing on the balance sheet date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences are recognized in profit or loss in the period in which they arise.

2.5.10 Loss per share

Loss per share disclosed in the consolidated comprehensive statement of income are determined by dividing net loss for the year by the weighted average number of shares that have been outstanding during the year.

Companies can increase their share capital by making a pro-rata distribution of shares ("bonus shares") to existing shareholders from retained earnings. For the purpose of losses per share computations, the weighted average number of shares outstanding during the year has been adjusted in respect of bonus shares issues without a corresponding change in resources, by giving them retroactive effect for the year in which they were issued and for each earlier year.

2.5.11 Events after the balance sheet date

Subsequent events, announcements related to net profit or even declared after other selective financial information has been publicly announced, include all events that take place between the balance sheet date and the date when balance sheet was authorised for issue

In the case that events require a correction to be made occur subsequent to the balance sheet date, the Group makes the necessary corrections to the consolidated financial statements. Moreover, the events that occur subsequent to the balance sheet date and not require a correction to be made are disclosed in accompanying notes, where the decisions of the users of consolidated financial statements are affected.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2.5.12 Provisions, contingent assets and contingent liabilities

Provisions are recognized when the Group has a present obligation as a result of a past event, and it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Onerous contracts

Present obligations arising under onerous contracts are recognized and measured as a provision. An onerous contract is considered to exist where the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it.

2.5.13 Related parties

For the purpose of the consolidated financial statements, shareholders having control, joint control or significant influence over the Group, IBBL Group companies, fellow subsidiaries and key management personnel together with companies controlled, jointly controlled or significantly influenced by them are considered as and referred to as related parties.

2.5.14 Operating segments

Due to the fact that the Group only operates in one single industrial segment, that a substantial part of its operations occur in Turkey and that all of its assets are located in Turkey, the financial information are not required to be reported by segments.

2.5.15 Government grants

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the group will comply with all attached conditions.

Government grants relating to costs are deferred and recognized in the consolidated comprehensive income statement over the period necessary to match them with the costs that they are intended to compensate.

Government grants relating to property, plant and equipment are included in non-current liabilities as deferred government grants and are credited to the consolidated comprehensive income statement on a straight-line basis over the expected lives of the related assets.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2.5.16 Taxation and deferred income taxes

Turkish tax legislation does not permit a parent company and its subsidiary to file a consolidated tax return. Therefore, provisions for taxes, as reflected in the accompanying consolidated financial statements, have been calculated on a separate-entity basis.

Income tax expense represents the sum of the tax currently payable and deferred tax.

i. Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the consolidated comprehensive income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

ii. Deferred tax

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases which is used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognized to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the balance sheet date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2.5.17 Provision for employment termination benefits

Under Turkish law and union agreements, lump sum payments are made to employees retiring or involuntarily leaving the Group. Such payments are considered as being part of defined retirement benefit plan as per IAS 19.

The retirement benefit obligation recognized in the balance sheet represents the present value of the defined benefit obligation. All acturial gains and losses are charged to consolidated comprehensive income statement.

2.5.18 Statement of cash flows

In the consolidated cash flow statement, the consolidated cash flows for the term are classified and reported basing upon the operations, investment and financing activities. Consolidated cash flows from operating activities indicate the consolidated cash flow from the Group's activities. Consolidated cash flows related with the investment activities indicate the consolidated cash flows which the Group uses and acquires in its investment activities. Cash flows related with the financing activities indicate the consolidated resources which the Group uses in its financing activities and the repayments of such resources.

Cash and cash-like assets include the cash and bank deposits as well as short-term high-liquidity in vestments with certain amounts and with maturities equal to or less than 3 months, which may be easily liquidated.

2.5.19 Capital and dividends

Ordinary shares are classified as capital. As approved, the proportionate capital increases as applied to existing shareholders are reported at their nominal values. Dividend payments of ordinary shares are entered in the records in the term when they are described in the capital. And stock issuance premiums represent the difference between the face values of the publicly traded stocks and their sales prices.

2.6 Critical accounting estimates and judgements

Preparation of consolidated financial statements requires disclosure of assets and liabilities, contingent assets and liabilities as at balance sheet date and utilisation of estimates and assumptions that can affect income and expense amounts. The results of these estimations and assumptions can differ from the actual results even these estimations and assumptions are based on the management's best estimate. Significant estimates of the Group management are as follows:

a) Impairment of available-for-sale financial assets

The Group reviews its portfolio of available-for-sale financial assets for potential impairment. The determination of impairment requires management to use significant judgment especially in available-for-sale financial assets that do not have independent market valuation benchmarks. In making its assessment, the Group evaluates various factors including the financial health of and outlook of the investee, the significance in the decline in the fair value of the investment and whether the decline is prolonged or temporary. In this respect, available-for-sale investments of the Group are stated at their costs less impairment losses, if any.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

b) Deferred taxes

Deferred tax assets and liabilities are recorded using enacted tax rates for the effect of temporary differences between tax bases of assets and liabilities and their carrying values based on CMB Financial Reporting Standards. Currently, there are deferred tax assets resulting from tax losses carried forward and deductible temporary differences, all of which could reduce taxable income in the future. Based on available evidence, it is determined whether it is probable that all or a portion of the deferred tax assets will be realized.

The main factors which are considered include potential future earnings; cumulative losses in recent years; history of losses carried forward and other tax assets expiring; the carry-forward period associated with the deferred tax assets; future reversals of existing taxable temporary differences; tax-planning strategies that would, if necessary, be implemented, and the nature of the income that can be used to realize the deferred tax asset. Based on the assessment of all available evidence, the Group management believes that taxable profit will not be available sufficient to utilize some portion of these deferred tax assets, then all of the deferred tax assets are not recognized. If future results of operations exceed the Group management's current expectations, the existing unrecognized deferred tax assets may be recognized, resulting in future tax benefits.

c) Income taxes

The Group operates in various tax jurisdictions and is subject to the related tax regulations. Significant judgment is required to determine the Group provision for income taxes. The Group estimates its liabilities for tax obligations as well as the utilization of available loss carry forwards. When the final tax outcome is known, the actual positions may vary from these estimates and adjustments to deferred income tax positions may be required.

d) Provision for doubtful receivables

Impairment loss in the trade receivables and other receivables are based upon the Group management's evaluation about the volume of the amount of trade, past experiences and overall economic conditions.

e) Useful lives of the assets

The useful economic lives of the assets of the Group are determined on the acquisition date of such assets and reviewed at regular intervals by the Group management. The Group determines the useful life of an asset in consideration of the estimated benefit of such asset. Such evaluation is based upon the Group's experience with similar assets. In determining the useful life of an asset, the Group further considers the condition of the assets becoming useless in a technical and/or commercial manner as a consequence of the changes or developments in the market.

f) Adjustment of asset and liability in relation to returnable bottles and crates

For the returnable bottles presented in the property, plant and equipment, the Group calculates the amount of lost and broken bottles in the point of sales by using a ratio for lost and broken ones as it is impracticable to perform a physical inventory count for returnable bottles every year. By using such ratio that are based on estimation depending experience and researches, returnable bottles are disposed from fixed asset register. In accordance with the estimation of lost and broken bottles, the liability of deposits is released proportionately.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

g) Provision for employment termination benefits

The Group management employs actuary evaluation methods in order to estimate the severance pay liability. The provision for severance pay has been calculated at its current net amount of any liability amounts which shall arise in the future due to the retirement of all the employees and reflected in the consolidated financial statements enclosed herein. Accordingly, the following estimates have been used in the calculation of the total liability:

	31 December 2009	31 December 2008
Discount rate	%5,92	%6,26
Probability of retirement	%95,1	%95,0

Basic assumption is the increase of the ceiling liability determined for each annual service in proportion with the inflation rate. Thus, the discount rate applied shows the actual rate which has been cleared of the expected impacts of the inflation.

NOTE 3 - CASH AND CASH EQUIVALENTS

b) Provision for employment termination benefit:

	31 December 2009	31 December 2008
Provision for employment termination benefit	3.197.259	2.839.776
	3.197.259	**2.839.776**

Under Turkish Labor Law, the Group is required to pay employment termination benefits to each employee who has qualified. Also, employees are required to be paid their retirement pay provisions who retired by gaining right to receive retirement pay provisions according to current 506 numbered Social Insurance Law's 6 March 1981 dated, 2422 numbered, 25 August 1999 dated and 4447 numbered with 60th article that has been changed. Some transition provisions related to the pre-retirement service term was excluded from the law since the related law was changed as of 23 May 2002.

The amount payable consists of one month's salary limited to a maximum of 2.365,16 TL for each year of service as of 31 December 2009 (2008: 2.173,18 TL).

The provision has been calculated by estimating the present value of the future probable obligation of the Group arising from the retirement of employees. IAS 19 requires actuarial valuation methods to be developed to estimate the enterprise's obligation under defined benefit plans. Accordingly, the following actuarial assumptions were used in the calculation of the total liability:

The principal assumption is that the maximum liability for each year of service will increase parallel with inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the anticipated effects of future inflation. Consequently, in the accompanying financial statements as at 31 December 2009, the provision has been calculated by estimating the present value of the future probable obligation of the Group arising from the retirement of the employees. The provisions at the respective balance sheet dates have been calculated assuming an annual inflation rate of 4,80% and a discount rate of 11%, resulting in a real discount rate of approximately 5,92% (2008: 6,26%).

The anticipated rate of forfeitures is considered as 95,1% (2008: 95,0%).

NOTE 13 - BENEFITS PROVIDED TO EMPLOYEES (Continued)

The second legal reserve is appropriated at the rate of 10% per annum of all cash distributions in excess of 5% of the paid-in capital.

NOTE 15 - EQUITY (Continued)

In accordance with the CMB regulations effective until 1 January 2008, inflation adjustment differences arising at the initial application inflation accounting, which were recorded under "accumulated losses," could be net off from the profit to be distributed based on the CMB regulations. In addition, the aforementioned amount recorded under "accumulated losses" could be net off against the reserves arising from the inflation adjustment of net off profit for the period and undistributed retained earnings. Remaining amount, if any, could be net off against the reserves arising from the inflation adjustment of extraordinary reserves, legal reserves and share capital, respectively.

In addition, in accordance with the CMB regulations effective until 1 January 2008, "Capital, Share Premiums, Legal Reserves, Special Reserves and Extraordinary Reserves" were recorded at their statutory carrying amounts and the inflation adjustment differences related to such accounts were recorded under "Inflation adjustment to shareholders' equity" in equity at the initial application of inflation accounting. "Inflation adjustment to shareholders' equity" could have been utilised in issuing bonus shares and offsetting accumulated losses, carrying amount of extraordinary reserves could have been utilised in issuing bonus shares, cash dividend distribution and offsetting accumulated losses.

In accordance with the Communiqué No: XI-29 and related announcements of CMB, effective from 1 January 2008, "Share capital", "Restricted Reserves" and "Share Premium" shall be carried at their statutory amounts. The valuation differences (like inflation adjustments) shall be classified as follows:

- the difference arising from the "Paid-in Capital" and not been transferred to capital yet, shall be classified under the "Adjustment to Share Capital",

- the difference due to the inflation adjustment of "Restricted Reserves" and "Share Premium" and the amount has not been utilised in dividend distribution or capital increase yet, shall be classified under "Retained earnings".

Other equity items shall be carried at the amounts in accordance with the CMB Financial Reporting Standards.

In accordance with the CMB decision dated 27 January 2010, the listed companies were excluded from the minimum profit distribution requirement in relation to 2009 fiscal year (2008: The minimum profit distribution requirement of 20%).

c) Accumulated losses:

As at 31 December 2009, accumulated losses in consolidated balance sheet of the Group prepared in accordance with CMB Financial Reporting Standards amount to 475.342.992 TL (2008: 368.323.816 TL).

NOTE 22 - TAX ASSETS AND LIABILITIES (INCLUDING DEFERRED TAX ASSETS AND LIABILITIES)

Turkish tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, provisions for taxes, as reflected in the consolidated financial statements, have been calculated on a separate-entity basis.

Corporation tax is payable at a rate of 20% (2008: 20%) on the total income of the Company after adjusting for certain disallowable expenses, exempt income and investment and other allowances (e.g. research and development allowance). No further tax is payable unless the profit is distributed. Corporations are required to pay advance corporation tax quarterly at the rate of 20% (2007: 20%) on their corporate income. Advance tax is payable by the 17th of the second month following each calendar quarter end. Under the Turkish taxation system, tax losses can be carried forward to offset against future taxable income for up to 5 years. Tax losses cannot be carried back to offset profits from previous periods.

In Turkey, there is no procedure for a final and definitive agreement on tax assessments. Companies file their tax returns within the 25th of the fourth month following the close of the financial year to which they relate. Tax returns are open for 5 years from the beginning of the year that follows the date of filing, during which time the tax authorities have the right to examine tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

Dividends paid to non-resident corporations, which have a place of business in Turkey, or resident corporations are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 15% (2007: 15%). An increase in capital via issuing bonus shares is not considered as a profit distribution and thus does not incur withholding tax.

NOTE 22 - TAX ASSETS AND LIABILITIES (INCLUDING DEFERRED TAX ASSETS AND LIABILITIES) (Continued)

In Corporate Tax Law, there has been settled a number of exemptions for companies, of which the Company may benefit are explained as follows:

According to Turkish Corporate Income Tax Law numbered 5520, effective from 21 June 2006, a 75% portion of the gains derived from the sale of preferential rights, usufruct shares and founding shares from investment equity and real property, which has remained in assets for more than two full years are exempt from corporate tax. To be entitled to the exemption, the relevant gain is required to be held in a fund account in the liabilities and it must not be withdrawn from the entity for a period of five years. The sales consideration has to be collected up until the end of the second calendar year following the year the sale was realised.

Dividend income from shares in the capital of another corporation subject to resident taxpaying (except dividends from investment funds participation certificates and investment trusts shares) is exempt from corporate tax.

75% of profit from sale of preferential right certificates and share premiums generated from sale of shares at a price exceeding face values of those shares during incorporations or capital increases of joint stock companies are exempt from corporate tax.

Investment incentives are revoked commencing from 1 January 2006. If companies cannot use investment incentive due to inadequate profit, such outstanding investment incentive can be carried forward to following years so as to be deducted from taxable income of subsequent profitable years. However the companies can deduct the carried forward outstanding allowance from 2006, 2007 and 2008 taxable income. The investment incentive amount that cannot be deducted from 2008 taxable income will not be carried forward to following years. On the other hand, the Constitutional Court has cancelled the regulation enforcing the time limitation for unused investment incentives on 15 October 2009. Such decision was announced at official gazette on 8 January 2010.

Taxation on income for the nine-month periods ended 31 December 2009 and 2008 is as follows:

	1 January- 31 December 2009	**1 January - 31 December 2008**

NOTE 22 - TAX ASSETS AND LIABILITIES (INCLUDING DEFERRED TAX ASSETS AND LIABILITIES) (Continued)

Deferred income taxation

The Group recognises deferred income tax assets and liabilities based upon temporary differences arising between the consolidated financial statements and the statutory tax financial statements. Deferred income taxes are calculated on temporary differences that are expected to be realised or settled under the liability method using the principal enacted tax rate of 20% (2008: 20%).

In Turkey, the companies cannot declare a consolidated tax return, therefore subsidiaries that have deferred tax assets position were not net off against subsidiaries that have deferred tax liabilities position and disclosed separately.

The breakdown of cumulative temporary differences and the resulting deferred income tax assets and liabilities provided at 31 December 2009 and 2008, using enacted tax rates at the balance sheet dates, was as follows:

	31 December 2009		31 December 2008	
	Cumulative temporary differences	**Deferred tax (liability)/ asset**	**Cumulative temporary differences**	**Deferred tax (liability)/ asset**
Property, plant and equipment and intangible assets	(2.008.590)	401.718	1.691.606	(338.321)
Other	3.929.850	(785.970)	1.927.541	(385.508)
Tax losses carried forward	(1.921.260)	384.252	(3.619.147)	723.829
	-	-	-	-

The Group did not recognise deferred income tax assets of 40.107.163 TL (2008: 43.777.560 TL) arising from tax losses carried forward and certain deductible temporary differences listed below as their future utilisation is not virtually certain. While making the assessment of utilisation of deferred tax assets, the Group management considers such factors as the developments in the sector in which it operates, taxable profit forecasts in the forthcoming years, Turkey's general economic and political condition as well as international general economic and political conditions which may affect Turkey and/or the Group.

	31 December 2009	**31 December 2008**
Tax losses carried forward	136.716.618	165.513.934
Investment allowance	47.565.064	31.398.523
Deductible temporary differences	34.126.396	32.230.230
	218.408.078	**229.142.687**

Deductible temporary differences listed above are mainly composed of property, plant and equipment amounted to 6.944.749 TL (2008: 9.654.854 TL), provision of doubtful receivables amounted to 5.769.418 TL (2008: 5.496.766 TL), provision for employment termination benefits and vacation pay liability amounted to 5.308.687 TL (2008: 4.736.822 TL) and impairment on available for sale investments amounted to 3.462.874 TL (2008: 3.462.874 TL).

NOTE 22 - TAX ASSETS AND LIABILITIES (INCLUDING DEFERRED TAX ASSETS AND LIABILITIES) (Continued)

Years of expiration of tax losses carried forward over which no deferred income tax assets were recognised as of 31 December 2009 and 2008 are as follows:

NOTE 25 - NATURE AND LEVEL OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

a) Credit risk:

Ownership of financial assets brings about the risk of the other party's failure to perform the obligation of the contract. The Group management covers such risks by restricting the average risk fort he other party (excluding related parties) in each contract and receiving guarantees if and when necessary. The Group does business through a dealers system to a great extent in the country. The Group reduces its collection risk with letters of guarantee, mortgages and pre-sales binding notes which it received from its dealers and controls the purchase orders of its dealers not covered by such guarantees by comparing such guarantees received from dealers with its receivables. Considering the past experience in the collection of the trade receivables of the Group, one can see that the provisions allocated are within the anticipated limits. Therefore, the Group management does not anticipate any additional risks related with the Group's trade receivables.

Allocation of credit risk in terms of major customer groups at 31 December 2009 and 2008 is as follows.

	31 December 2009	31 December 2008
Wholesale customers	45.147.861	45.305.968
Retail customers	6.812.267	13.349.841

b) Liquidity risk:

Prudent liquidity risk management implies maintaining sufficient cash and cash equivalents, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions.

Liquidity risk is managed by obtaining sufficient financing facilities from various financial institutions to be able to fund the present and future potential borrowing requirement. Liquidity risk represents the Group's risk of failure to cover its financial liabilities when they are due. The Group's liquidity management approach is to have sufficient liquidity in each and every term and to cover any liabilities both under normal and hard conditions when they are due without causing any unacceptable loss nor damaging the reputation of the Group in the market.

In addition, the ultimate parent company has provided the necessary financial support for the strengthening of the financial structure of the Group by means of capital advances.

c) Market risk:

i) Interest risk

The Group does not have any interest risk as of 31 December 2009 and 2008.

ii) Price risk

The operational profitability of the Group and the cash flows provided from the operations are affected by the beer sector which are changing according to the competition in the relevant market and the changes in the raw material prices. These relevant prices are closely followed up by the Group management and Audit Committee to reduce the pressure of the costs on selling prices and necessary precautions for cost reductions are taken accordingly. Price risk is monitored by Board of Directors and Audit Committee via regular meetings.

iii) Foreign exchange risk

The Group is exposed to foreign exchange risk through the impact of rate changes on translation into TL of foreign currency denominated assets and liabilities. These risks are discussed at the meetings of Board of Directors and Audit Committee, and closely monitored by analysis of the foreign currency position.

d) Capital risk management:

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as the total liability (including borrowings, trade, due to related parties and other payables, as shown in the consolidated balance sheet) less cash and cash equivalents.

NOTE 27 - DISCLOSURE OF OTHER MATTERS

a) Management plans:

The accumulated loss of the Group is amounted to 475.342.992 TL as of 31 December 2009. Different from prior periods, the Group has generated an operating profit of 5.031.650 TL during the year ended 31 December 2009, while the uncertainty on sustainability of such profitability still remains. In this respect, the Group management has taken necessary measures to cope with the uncertainty that may cast doubt on the Group's ability to continue as a going concern. Accordingly,

i. The Group continued the application of its cost-effective policies in 2009 and harvested favourable outputs especially in production costs. Related projects are planned to be continued in 2010 by the Group management.

ii. In 2009, the Group performed several studies and reviewed its product portfolio to better serve to customer needs. In respect to those studies, Tuborg brand is planned to be relaunched in mainstream segment.

ii. Focusing on the quality of guarantees and average collection maturities is planned to be continued in 2010 in order to make the Group's consolidated cash flow better.

iii. The Group's export potential has been successfully utilised by entering new markets while the current export volume is planned to be sustained in 2010 as well.

b) Restatement of prior year consolidated financial statements:

The Group has applied the May 2008 improvements concerning the IAS 38 which is in effect for the fiscal term of 1 January 2009 or those commencing after the date in question within the current year. The marketing materials presented under "inventories" in the previous application have been entered in the income statement under the designation of marketing, sales and distribution costs. Once IAS 38 has started to be applied as from the term commencing on 1 January 2008, the financial statements of the preceding terms have been restated basing upon the IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors" ("IAS 8").

NOTE 27 - DISCLOSURE OF OTHER MATTERS (Continued)

The Group presented the credit card receivables under "cash and cash equivalents" in the preceding years. While issuing the financial statements dated 31 December 2008, the Group has presented the credit card receivables under "trade receivables" and restated the consolidated financial statements of the preceding terms basing upon IAS 8 commencing from 1 January 2008.
