TABLE OF CONTENTS

ABOUT TUBORG

Türk Tuborg Bira and Malt Sanayii A.Ş. (Türk Tuborg) has been producing beer and malt at its facilities located in Pınarbaşı, İzmir since 1969. In addition to production, it continues the distributorship activities of imported beer.

Türk Tuborg has become one of the biggest players in the Turkish beer market with its 17-year international partnership with Carlsberg which has a striking history in all categories and is the third biggest beer producer in the world.

In addition to being one of the major players in the Turkish beer market, Türk Tuborg has continued its export tradition for many years. With its export experience reaching 6 continents and 83 countries, Türk Tuborg has been contributing to Turkish Foreign Trade for years through leading export markets such as Iraq where it is the market leader, along with England, Canada, Germany and the Turkish Republic of Northern Cyprus. Türk Tuborg manufactures and exports different formulas and recipes according to the demands, in accordance with the regulations of the country of export.

Türk Tuborg has hosted many “firsts” in Turkey. With its quality-driven structure and dedication to traditional brewing techniques, Türk Tuborg approaches beer production not merely as a source of income, but rather as an art, one worthy of care and admiration. At the core of this belief lies a commitment to producing exemplary products, constantly improving production quality and techniques, and striving for perfection.

Türk Tuborg carries out all necessary raw material, input material, microbiology, semi-product and finished product controls in line with its superior quality approach with its expert staff in the laboratories established within its structure. In the analysis process, state-of-the-art devices and systems are used and data accuracy is supported by external laboratory analyses. Türk Tuborg produces beer at world standards in this integrated factory in İzmir.

With a production capacity of 36.000 tons of malt and approximately 579 million liters of beer; Türk Tuborg is the only brewery where malting and bottling are performed all together in Turkey.

Products produced by Türk Tuborg are sold through direct sales organization and dealers all over Turkey by its subsidiary Tuborg Pazarlama A.Ş. Weihenstephan, Weihenstephan Vitus, Kilkenny, Guinness, Frederik, Kronenbourg Blanc, Grimbergen Double Ambree, Grimbergen Blonde, Sol and Desperados brands are positioned within the superpremium beer segment; Tuborg Gold, Tuborg Filtresiz, Tuborg Amber, Tuborg Special, and Carlsberg brands are positioned within the standard segment; Skol, Troy and Venus brands are positioned at the economic beer segment; Campari, Aperol and Cinzano Prosecco brands are positioned within the aperitif segment in 2022.

THE GERMAN PURITY LAW

Munich Technical University Weihenstephan Brewing and Food Quality Research Center which is an independent, unbiased and competent authority has approved and certified the quality of our products and the fact that they are produced in compliance with German Beer Purity Law.

According to the German Purity Law, all raw materials used in beer production must be of natural, pure and high-quality standards. At the same time, traditional methods that maintain purity at every stage of the production process should be used. Production should be done with only four raw materials (Water, 100% Malt, Hops, and Yeast) without adding any additives.

Rice, sugar, sugar syrup, glucose, fructose, corn, external enzyme or preservative are not added at any stage of production. No substance that is genetically engineered, hormonal, chemically treated or of low quality is used.

With its increasing production demand, Türk Tuborg makes many new investments to maintain the 100% quality understanding and meet the demand. In 2019; new stock tanks for malts, which are the raw material of beer and produced from carefully selected barley, a new fermentation facility where these malts meet with water and are processed with care, new fermentation tanks to offer quality taste were put into use. Moreover with these investments made with 100% quality understanding and environmental awareness; an increase in production capacity and high-energy efficiency are targeted. In addition, thanks to the recycling facilities it has established, Türk Tuborg can reuse the by-products and waste from the production process. As a result of all these efforts, Türk Tuborg reduces the environmental impact and contributes for a sustainable future.

TSE Covid-19 Safe Production

As Türk Tuborg A.Ş., we have taken another important step in our 100% quality journey that we have been leading for years thanks to the measures and hygiene conditions we have put in place against the Coronavirus, "and we have become the first enterprise in our sector to receive the TSE Covid-19 Safe Production Certificate."

As Türk Tuborg, we see the health of our consumers, employees and business partners as our primary duty and the continuity of our usual production **"with Tuborg quality"** as our social responsibility. Therefore we take all necessary measures against the Covid-19 pandemic and strictly implement them under the guidance of the T.C. Ministry of Health and all related institutions.

As usual, Türk Tuborg carries out all its processes in the brewery independent from human factor and untouched by human hands.

Production Processes:

- Temperature check at brewery and office entrances,
- Disinfection of all work areas after each shift,
- Recyclable bottles always undergo a special washing technique at 85 degrees before bottling; and they are pasteurized at high temperatures after bottling,
- Can products continue to be protected through **"Clean Cap"** technology which has been used for years; aluminum foil covers are applied without human touch through heat during production processes to preserve hygiene of the outer surface of cans until they reach the end-customer.

Work Environments:

- In order to minimize social risk and protect the health of our employees, switching to home office work for the employees who can continue to work independent from their location; , maintaining safe social distance for the employees who continue their duties in the work environment.
- Increasing the number of dressing rooms, with UVC air sterilization; isolating the environment from all kinds of viruses and bacteria, including Covid-19.
- Providing all the necessary materials for our field teams, renewing gloves, masks and visors at each visit,
- Our healthcare team is available 24/7,
- Setting mealtime periods in the refectory, making various arrangements for refectory to be hygienic,
- Setting a new seating arrangement for service vehicles, Türk Tuborg has taken another important step in the 100% Quality Journey that it has been leading for years and has been first enterprise to receive **"TSE Covid-19 Safe Production Certificate"** in its sector.

GENERAL INFORMATION

Incorporated with the partnership of Tuborg Breweries Ltd. of Denmark in 1969, Türk Tuborg has always been a leading firm introducing innovations to the brewing market during its history that dated back more than 50 years as well as being the very first private beer producer in Turkey.

Shares representing 95,69% of the total issued share capital of the Company, and shares corresponding to 0,067% of the total share capital of Tuborg Pazarlama A.Ş. were transferred by Carlsberg Breweries A/S to International Beer Breweries Ltd. as of 23 October 2008. The Board of Directors of Türk Tuborg will continue to evaluate opportunities to increase the free float in order to foster share liquidity.

GENERAL ASSEMBLY MEETINGS

2021 Ordinary General Assembly Meeting date has not been determined yet.

VOTING RIGHTS AND MINORITY RIGHTS

According to the articles of association of the company, the shareholders or their proxies present in the Ordinary and Extraordinary General Assembly meetings have one vote for each share, and there are no privileges regarding the vote or dividend.

The Company avoids practices that make it difficult for the shareholders to exercise their voting rights. Minority shares are applied in line with the definition specified in the TCC and have not been determined less than one twentieth of the capital by the articles of association.

DIVIDEND RIGHTS AND DIVIDEND POLICY

There is no privilege as to dividends. The policy of the Company concerning dividend distribution is to distribute the profit considering its medium and long-term strategies, financial situation, the investments and financial plans, other fund requirements, market conditions, economic environment, Capital Market legislations and Turkish Commercial Code.

In the event that distributable profit is available in accordance with relevant regulation, the dividend distribution resolution to be taken by the Board of Directors in the form of cash and/or shares and/or installments as long as the amount is not below than 20% of the distributable profit within the frame of the provisions of Capital Market legislation and Turkish Commercial Code shall be submitted to the approval of General Assembly; and the distribution shall be completed within legal terms.

A consistent policy shall be followed regarding the benefits of the shareholders' versus the Company's benefits in the application of Dividend Distribution Policy. When no profit is distributed, the Board of Directors shall inform the shareholders at General Assembly meeting about the reasons for not distributing profit and how the undistributed profits would be allocated.

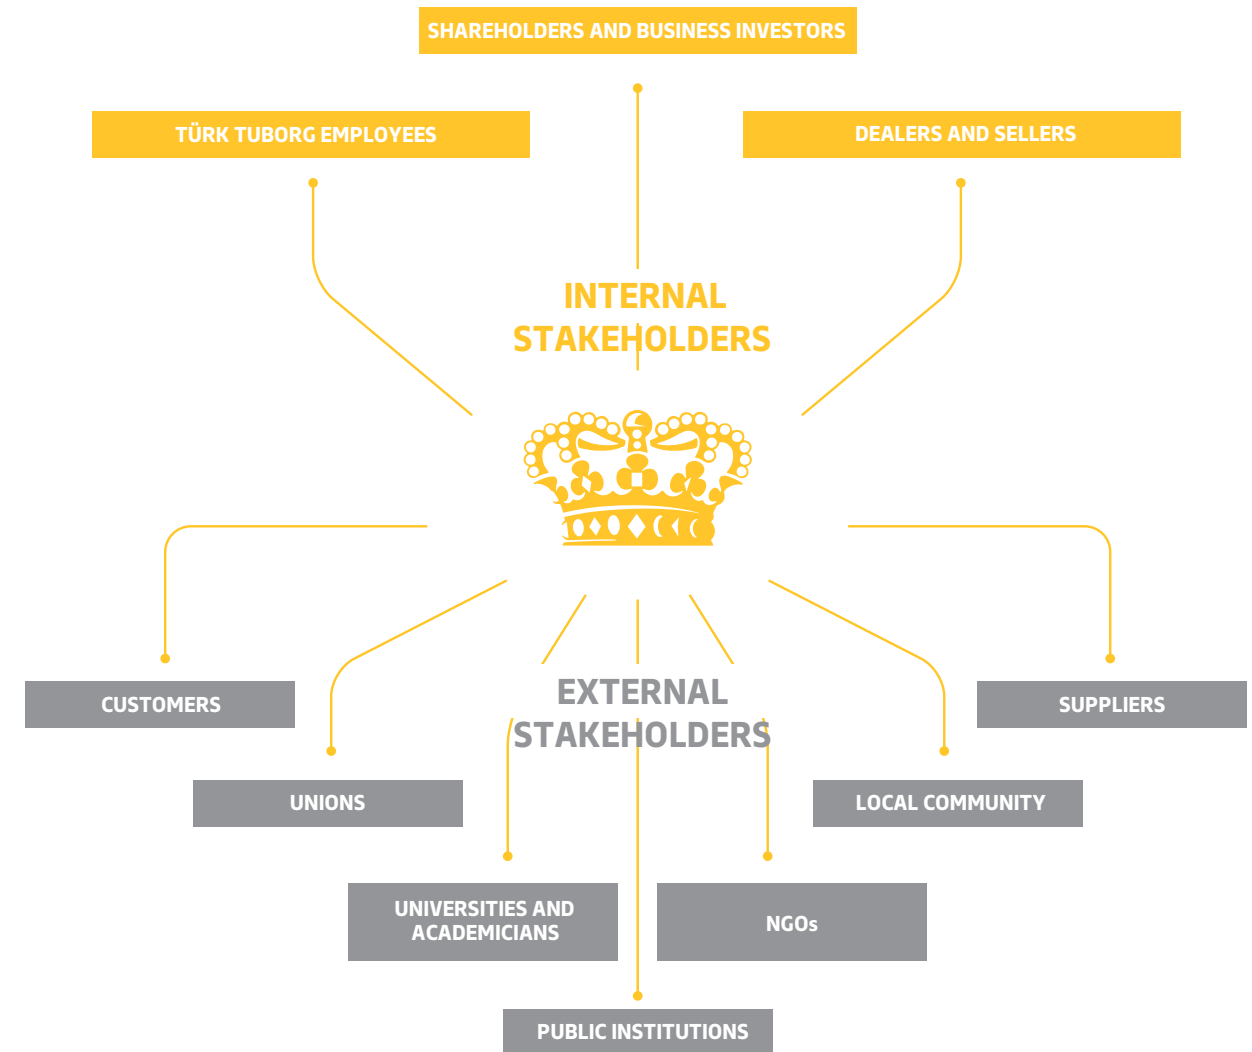

The articles of association of the company contains a provision concerning the dividend advance. Exercising the power to pay advances is evaluated within the framework of the current legislation and economic environment by the board of directors.

STAKEHOLDERS

Türk Tuborg describes any person, organization and community that affects the quality and quantity of its activities as a business stakeholder. Stakeholders in Türk Tuborg are seen as one of the most important factors affecting the success of the company. With this consciousness; to better manage all shares and communicate more effectively, Türk Tuborg stakeholders are categorized according to the related departments and the list of business stakeholders and dialogue platforms of each department has been prepared in detail. In this way, it is aimed to create a more effective communication environment.

Stakeholders are kept informed via the related meetings held while considering the issues of confidentiality. Company's corporate governance structure allows all stakeholders, including employees to express their concerns regarding illegal or unethical practices to Company management via inquiry form at corporate website. Supportive mechanisms and models have been created to encourage stakeholder and especially employee participation in the Company's management without interfering with Company operations. Participation of stakeholders in the management is supported by instruments such as "proposals" and "surveys" without interfering with Company operations. The Company involves the workers union in decision making processes and obtains their approval regarding operational changes in work conditions, the environment, and employee rights. Dealers in close contact with the Company through "Dealers Meetings" are also encouraged to participate in Company policies.

HUMAN RESOURCES POLICY

Türk Tuborg carries out many practices to internalize the necessary managerial processes in order to increase the quality of business life of its employees, which it sees as its primary stakeholder. While modern management approaches are adopted at Türk Tuborg, open dialogue environments increase the communication opportunities of employees with each other and their managers. This is also to prepare the ground where employees can perform best in a healthy and safe environment.

Türk Tuborg's human resources policy is to create a competent/well-equipped team with Türk Tuborg values, 100% affiliated with its organization and brands, and with high motivation and performance, and constantly develop this team. Türk Tuborg adopts a decent work approach by creating a working environment that offers equal opportunities for language, religion, race, sect, belief, gender and similar reasons, along with human resources management that focuses on human rights.

Türk Tuborg aims to gradually reinforce its “being preferred first” position by skilled workforce. Competency-based Human Resources practices implemented within the company create a professional work environment and career development opportunities for employees. The goal of the employment process is to find the right person for the right position by carrying out a fair and consistent evaluation that is guided by the equal opportunity principle. Candidates are evaluated based on the knowledge, experience and competencies required by the positions, and Türk Tuborg selects only those committed to never compromising on quality, always completing 100% of their job, looking for ways for self-improvement, standing behind their promises and supporting their colleagues under all conditions.

A performance management system is used to fairly and objectively assess employee contribution through the use of data, to award superior performance and to support professional development. Internal and external training programs are put in place to support employees at all levels in their identified areas of improvement. Türk Tuborg applies the internal candidate process, which aims to contribute to the career developments of its employees by presenting new career opportunities that allow the opportunity to fulfil their own potential and contribute to the company's success in accordance with its vision of “Raising of our leaders from within”.

With its internal communication processes, Türk Tuborg aims to ensure that communication flow is continuous and that employees are timely informed of company developments and are always aware of the big picture and to increase collaboration between departments. During the annual BizBize meetings attended by all employees, the results of the previous fiscal year are evaluated, and strategies and goals for the current year are discussed. At these meetings, outstanding employees are also recognized through the “100% Awards” award program, which aims to encourage employees' contributions to the company and their hard work, to bring visibility to their efforts, to support and ensure the continuity of their achievements and to increase their motivation. Additionally, as part of the principle of transparency, all Human Resources Procedures and job descriptions are made accessible to all employees and are published throughout the year on the company's online platform.

Türk Tuborg's management aims to increase awareness by constantly following the targets regarding equal opportunities.

Acting on the principle of human dignity, for Türk Tuborg, equality of opportunity is a fundamental right in all areas of life, especially in working life. Türk Tuborg cares about treating everyone fairly and equally and promoting this approach both at work and in the social field. In addition, as a company that respects equality and diversity, Türk Tuborg believes that differences improve the area where there are individuals or groups, and that business efficiency increases with an inclusive approach. Türk Tuborg takes pride in its diversity and sees these differences as opportunities to provide a competitive advantage for Türk Tuborg.

Pursuant to the 100% Equal Opportunity Policy, no discrimination can be made in Türk Tuborg due to race, religion, language and gender differences. Parents working at Türk Tuborg are informed by using the 100% Parenting Guide specially prepared for them, and on matters that will help them during the birth process. Due to the document, they have information about legal legislation. For full-time employees at Türk Tuborg, private health and life insurance are provided. Türk Tuborg is aware of the importance of employees giving birth to breastfeed their babies after returning to work. For this reason, it shows that it supports the employees in this process by opening Breastfeeding Rooms that mothers can easily access. In no case child labor is employed. Working suppliers are also expected to show sensitivity in this regard.

In accordance with the 100% Equal Opportunity Policy;

It is aimed to increase awareness by following the issues and targets regarding equality of opportunity with the reports made at both senior management and executive levels. As part of the Equal Opportunity approach, Türk Tuborg is also committed to increasing employment for women and persons with disabilities. Business environments are organized in a way to facilitate the working conditions of employees with special needs.

To increase the female job pool, we have created career platforms featuring “Women in the Field” job postings advertising Sales Function jobs and “Female Power in Production” postings advertising Supply Chain Function jobs. Other projects are also being developed to increase the number of female applicants for all functions, not only Sales and Supply Chain. To this end, the “Female Applicant Suggestion System” has been put in place for job listings that are announced internally.

Code of Conduct and Social Responsibility

Ethical rules were determined by Türk Tuborg and evolved over times; these rules are implemented by Türk Tuborg from its perspective as a business, employer and corporate citizen.

At Türk Tuborg, our business ethics, code of conduct and principle of honesty have always been a road map in terms of our way of business and have established the basis for determining how to act, where to go and how to get there. Our biggest goal is to set an example for our employees, customers, business partners, and society with our business ethics and principles.

Within this framework, Türk Tuborg have pledged to be honest, transparent and accountable towards its employees, business partners, customers, and society and embraced a code of conduct of highest standards. Türk Tuborg expects every employee to abide by company values and principles and act in an honest manner in accordance with business ethics.

In this sense, we encourage everyone to be aware of situations that would lead to problems regarding ethical standards and for employees and executives to engage in dialogues for the resolution of said problems.

Türk Tuborg conducts its social studies with the “100% Volunteer Program”, which has been implemented with the philosophy of strength arises from unity by showing sensitivity in social areas and by observing 100% Equal Opportunity.

100% Volunteers Program is a social responsibility program organized by Türk Tuborg employees. The aim of the program is to make all volunteering activities carried out considering 100% equal opportunity within the framework of legal rules and to reach more people by increasing the number of volunteers. In addition, by including the families of the employees, dealers and suppliers to the works carried out, it is aimed to increase the awareness of social responsibility. The studies to be carried out are cooperated with relevant non-governmental organizations.

Occupational Health and Safety

Türk Tuborg engages in works to provide its employees with a healthy and safe work environment and aims at zero occupational accidents on account of its company slogan, "100% occupational health, 100% occupational safety".

To achieve this aim;

- Eliminating hazards related to occupational health and safety and to reduce Occupational Health and Safety risks,
- Consulting our employees and employee representatives before making decisions regarding Occupational Health and Safety and ensuring their participation,
- Providing safe and healthy working conditions to prevent work-related injury and health deterioration,
- Complying with legal and other requirements regarding our Occupational Health and Safety risks,
- Encouraging our suppliers and subcontractors to operate in a sensitive manner on Occupational Health and Safety,
- Management based on ISO 45001 "Occupational Health and Safety Management System" standards measuring, monitoring, reviewing and constantly evaluating the performance of our system by setting goals to improve it are our basic duties and responsibilities.

Studies concerning occupational health and safety are carried out within the frame of management system standards, legal legislations, ILO conventions and Türk Tuborg occupational procedures and instructions.

All employees that clock in at Türk Tuborg complete the Occupational Health and Safety Training as a legal obligation, based on the company's hazard class. Within the scope of these trainings, matters that employees should pay attention to are explained according to the job description in addition to occupational health and safety topics.

Occupational accidents at Türk Tuborg are put subject to detailed inquiry by personnel, who received the "Accident Research and Point of Origin Analysis Training". The report, prepared in light of these inquiries, is shared with related departments and management and necessary actions are immediately taken. Moreover, findings revealed at the end of Risk Assessment Works, carried out with the attendance of employees, are tracked with corrective and preventive

ENVIRONMENT POLICY

We as Türk Tuborg Bira ve Malt Sanayii A.Ş.,

We accept the Environmental, Occupational Health and Safety management as an integral part of our business. Our objective is to protect the environment and ensure occupational health and safety together with all our stakeholders.

To achieve this aim;

- Using natural resources and raw materials in the most efficient way,
- Minimizing the environmental impacts caused by our activities and to prevent pollution,
- Eliminating hazards related to occupational health and safety and to reduce Occupational Health and Safety risks,
- Consulting our employees and employee representatives before making decisions regarding Occupational Health and Safety and ensuring their participation,
- Providing safe and healthy working conditions to prevent work-related injury and health deterioration
- Complying with legal and other requirements regarding our Environmental aspects, Occupational Health and Safety risks,
- Encouraging our suppliers and subcontractors to operate in a sensitive manner on Environment, Occupational Health and Safety,
- Measuring, monitoring, reviewing and continuously improving the performance of our management system based on the "ISO 14001 Environmental and ISO 45001 Occupational Health and Safety Management System" standards by setting targets

Our employees act with the mentioned responsibility and awareness at every stage of their activities and practices under their responsibility.

**TÜRK
TUBORG**

QUALITY AND FOOD SECURITY POLICY

As Türk Tuborg Bira ve Malt Sanayii A.Ş., our aim is to improve and ensure the customer expectations with the exceeded quality and food safety standards that we offer on sale.

For this purposes, Türk Tuborg aims:

- Continous improvement and review of processes, by evaluating the feedback from our customers and our suppliers,
